Article's name (can be changed in this form)

author + date + id (can't be changed)

Upload image

Here is (old) short description. (but now user can change it, because it is in form.)

Here is (old) article text. (also in form)

(If user adds an article, then he will see text I've written in this prototype.
Text in brackets is a commentary and won't be seen in final project.
The icon of flower is the image of article. But in final version of project I can remove this feature.)
